Dear President du Mas,

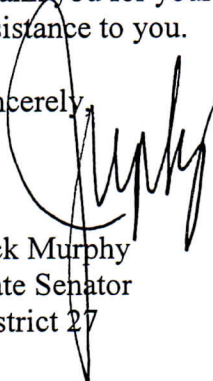

Congratulations on the Grand Opening Event for Highland Manor.

I appreciate the work of The Paces Foundation in Cumming, in Georgia and across the Southeastern United States to provide affordable, sustainable housing developments for our seniors.

As you are aware, the population of aging adults is progressively increasing around our nation. Your work to provide affordable, quality housing for this group is an extreme help to our community and our state as we look for ways to use our resources wisely and effectively.

Thank you for your presence in our community. Please let me know if I can ever be of assistance to you.

Sincerely,

Jack Murphy
